

## Clearwater Secondary School Suggested School Supplies 2022-23

\*\*\* This is a suggested list

- Binders
  - I suggest one to start. Many students like the zip up ones.
  - Dividers for binders – assists with binder/topic organization
  
- Pens red blue black, multi-colors makes note taking more effective
- Lined paper
- Graph paper
- Highlighter
- Pencils and erasers
- Sticky tabs, great for marking your page, also call Post-It Flags
- Sticky notes, great for quick notes
- Calculator
  - Not solar
  - Texas Instruments work well and are affordable, available Staples, Walmart, London Drugs, perhaps Costco, most department stores
  - Suggested models TI-30Xa
  - Models such as the TI-30XIIS or TI-34 Multiview are great, they allow you to view multiple lines, a great upgrade
  - For Sr. students pursuing sciences, these more expensive models are a great investment, TI-83 or 84
  - Students may not use their phone for a calculator during tests/quizzes
  
- PE strip
- Water bottle
- Optional items: headphones (sometimes students will be watching individual instructional videos), USB stick for transferring files, glue stick, pencil crayons, ruler, scissors, scotch tape
  
  
- School lock, must be purchased from CSS, \$10, we buy them back for \$5 when students graduate. Students may swap out locks at anytime if they want a different combination.**
